What was your overall first impression of the website?

Good. Not a fan of the colors. That's a weird dog.

Did you have any technical difficulties as you navigated through the pages and displayed the projects?

Wasn't sure where the home button was. I made a guess.

What do you feel are the most effective design elements of this web portfolio?

Layout of the Projects.

What would you suggest be changed with the design or content of this web portfolio?

Remove the dog and change it to something else. I would suggest a more vibrant color scheme. Replace name or icon of home button.
